

SECURE-SCAN

SECURE-SCAN BY SANICO USA TO BE USED BY SANICO USA'S TEMPORARY ACCESS CONTROLS SYSTEMS. SAFE-SCAN READS QR & NFC CREDENTIALS WHILE LOGGING EVENTS AND TRENDS INTO THE SANCO USA BACK OF HOUSE SYSTEM.

Secure Scan (Mobile App-Based Access Control)

Secure Scan eliminates the need for physical credentials, giving authorized personnel instant, remote access with their mobile devices.

- **Fast Badge Scanning** – Use a mobile device to instantly verify credentials at turnstiles, doors, and site entry points.
- **Cloud-Based Logs** – Keep real-time access records with automatic syncing across job sites.
- ~~**Tamper-Proof Security** – Prevent unauthorized entry with biometric authentication and encrypted credentials.~~

Secure Scan eliminates the need for physical turnstiles or gateways giving authorized personnel access to jobsites and events

Use a mobile device to instantly log and verify credentials at entry points.
