

SAFE SITE USA

Common Applications

- **Interior Construction Projects:** Efficiently track time and attendance for workers in enclosed environments.
- **Office Renovations:** Monitor access and work hours for contractors and employees.
- **Event Checkpoints:** Manage entry and exit data for staff and vendors.
- **Corporate Offices:** Streamline time and attendance tracking for temporary or permanent setups.
- **Warehouses:** Ensure accountability for employee movements in controlled areas.

REGISTRAR PRO

Accountability with proof

Registrar Pro stands out with its advanced Snapshot feature, which incorporates a built-in camera to capture and verify the identity of individuals scanning their credentials. This added layer of security ensures accurate tracking and accountability, making it ideal for environments requiring enhanced oversight. Whether it's monitoring access in office renovations, managing staff and vendor entry at event checkpoints, or streamlining attendance tracking in corporate offices and warehouses, Registrar Pro delivers unmatched reliability for both temporary and permanent setups.
