

## SAFE SITE USA

### Common Applications

- **Construction Sites:** Scanning workers' badges for open breaches, truck gates, and elevator access.
- **Event Venues:** Monitoring staff and vendor access with handheld convenience.
- **Industrial Facilities:** Tracking worker movements in high-security areas.
- **Temporary Sites:** Ensuring seamless access control for short-term projects.

## SECURE SCAN

### On The Fly Scanning

Secure Scan is a handheld app available on iOS and Android, seamlessly operating through our Top Flight Software. It scans workers' badges to log access events into the 'events page,' ensuring real-time accountability for open breaches, truck gates, and elevator access to floors under construction. Perfect for dynamic environments, Secure Scan integrates with Top Flight software for data recording, reporting, and analytics. It offers a reliable, portable solution for efficient access control on construction sites and beyond.
