

SAFE SITE USA

CLEAR SITE

Creating Drug-Free Construction Sites

Common Applications

- Pre-Employment Drug Testing
- Random Drug Testing
- Post-Accident Testing
- Return-to-Duty Testing

Clear Site Drug Testing by Safe Site USA is a cutting-edge solution designed to ensure safety, compliance, and operational efficiency on construction sites. Leveraging advanced technology, including the OralTox® rapid oral fluid test and the SSOT-Scan® app, Clear Site provides accurate, fast, and legally defensible drug testing results. This service fosters a safer, drug-free workplace, reducing risks and enhancing productivity.

FDA 510(k) clearance for rapid oral fluid testing.

Results available in under 10 minutes.

Detection of up to 10 substances, including THC, Cocaine, Methamphetamines, and more.

Saturation indicator for accurate sample collection

Observed collection reduces tampering risks

Less invasive, easy-to-administer testing process

Automated result reporting via SSOT-Scan® app

Secure QR code ties results to the donor

Integration with Premier Biotech laboratories for confirmation testing

Legally defensible results with robust chain-of-custody protocols

Real-time result reporting on a secure portal

Cost-effective solution reducing time-to-hire and operational delays

**Fast, Reliable, and Legally Defensible Drug Testing
for Safer Construction Sites**
